“Providing real solutions for your calibration needs...”

CALIBRATION CAPABILITIES...

Electrical	Physical/Mechanical	Others
Digital Multimeters	Gage Blocks	Voltage Calibrators
Oscilloscopes	Surface Plates	Current Calibrators
Clamp-On Meters	Torque Wrenches	Hardness Testers
Megohmmeters	Pressure Gauges	Optical Comparators
Hypots / HV Testers	Pressure Transducers	Video Inspection Equipment
Analog / Digital Panel Meters	Dial Indicators	Microscopes
Resistance Decades	Height Gages	Multi-Function Calibrators
Signal / Function Generators	Micrometers / Calipers	Temperature / Humidity Sensors
Insulation Tester	Steel Rules	Stop Watches / Timers

Plus Many More...

Calibration Services:

Calibration services are provided in accordance with the applicable requirements of *ANSI/NCSL Z540-1* and *ISO/IEC 17025*, using standards with accuracies traceable to the NIST or compared to nationally or internationally recognized consensus standards.

Identification:

Every item that is calibrated will be marked with a calibration label showing the equipment ID #, Certificate #, Serial #, date calibrated, due date for next calibration and identification on the technician that performed the calibration.

Calibration Certificates:

Utilizing BenchTop™ – CMI’s renowned calibration laboratory management software, our certificates are the most comprehensive you will find. Certificates can be issued in hard copy and/or “pdf” format.

In today’s demanding market, ICS understands the importance of quality, accuracy, and affordability. ICS provides complete metrology solutions for calibration and repair of electrical, mechanical and process control instrumentation to meet your most stringent documentation and quality system requirements.

Please call, fax, or email us your equipment list for calibration pricing.
